

DIGITAL PER-SEN

Digital Public Educational Resources for Special Educational Needs students

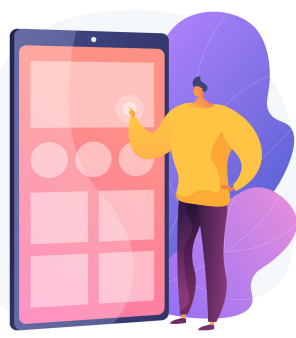

OUR GOAL

To reduce the negative effects imposed on SEN students and their teachers and families by the online school period.

OBJECTIVES

- Developing ICT skills of creating digital materials to teachers working with SEN students
- Developing ICT skills of using digital tools and materials to teachers working with SEN students
- Increasing the responsible behavior of the teachers working with SEN students towards online education and/or using ICT in education
- Increasing the responsible behavior of the SEN parents towards online education and/or using ICT in education
- Facilitating SEN student development and/or regress limitation after online education during pandemic period by using ICT/digital materials and methods

RESULTS

VIRTUAL LIBRARY
The Virtual Library contains digital materials adapted for SEN pupils.

GUIDE
Practical Guide "How to create a digital educational resource?"
